**O** borrowed-from-the-boys approach to dressing is nothing new in the fashion world. Boyfriend jeans and menswear-tailored blazers have long been staples in our closets. But recently, another classic got an upgrade from the style set: the baseball cap. So, when Kate Spade decided to launch its supercute new lower-priced line, Saturday, it was no surprise that the weekend wardrobe essential was front and center among the offerings. Our recommendation? Ditch that tired logo-adorned hat and instead top off your look with one of these bright, printed caps. It's the perfect way to show your spirit for team Kate Spade. —VICTORIA LEWIS
